Feature walkthrough for the department

WHY WE BUILT IT

Every tender costs the same two to three days of reading

The TBA is built by hand: each work order checked against the NIT, one page at a time.

300–400

service and works tenders a year at Paradip Refinery, with purchase tenders on top

16–24 h

engineer-hours per tender to read the dossiers and prepare the TBA sheet by hand

896

pages in a single tender's bidder dossiers: work orders, completion certificates, invoices

For every work order the engineer decides:

- Similar nature?
- Completion proof?
- Value incl. GST
- ARC annualisation
- 7-year window
- Clause in the remark

HOW IT WORKS

Four steps from NIT to a signed-off sheet

The AI does the reading. The engineer makes every decision.

1

Upload the NIT

Qualifying values, similar-nature definition, ARC flag and experience window are read with their clause numbers.

2

Upload dossiers

Upload each bidder’s PDFs in any order. Scanned pages are read directly, with no separate OCR step.

3

AI drafts the TBA

All 18 columns filled, each row with its reason, its NIT clause and the page it came from.

4

Engineer confirms

Confirm or override each row, raise technical queries, export to Excel and PDF.

Documents are read by Google Gemini’s multimodal model, which reads text and page images, including scans.

THE WORKSPACE

Each tender is a shared workspace

All evaluations in one place

The live tender sits in the banner with its bidder and query counts. Other evaluations running in parallel are one click away.

Synced for the whole team

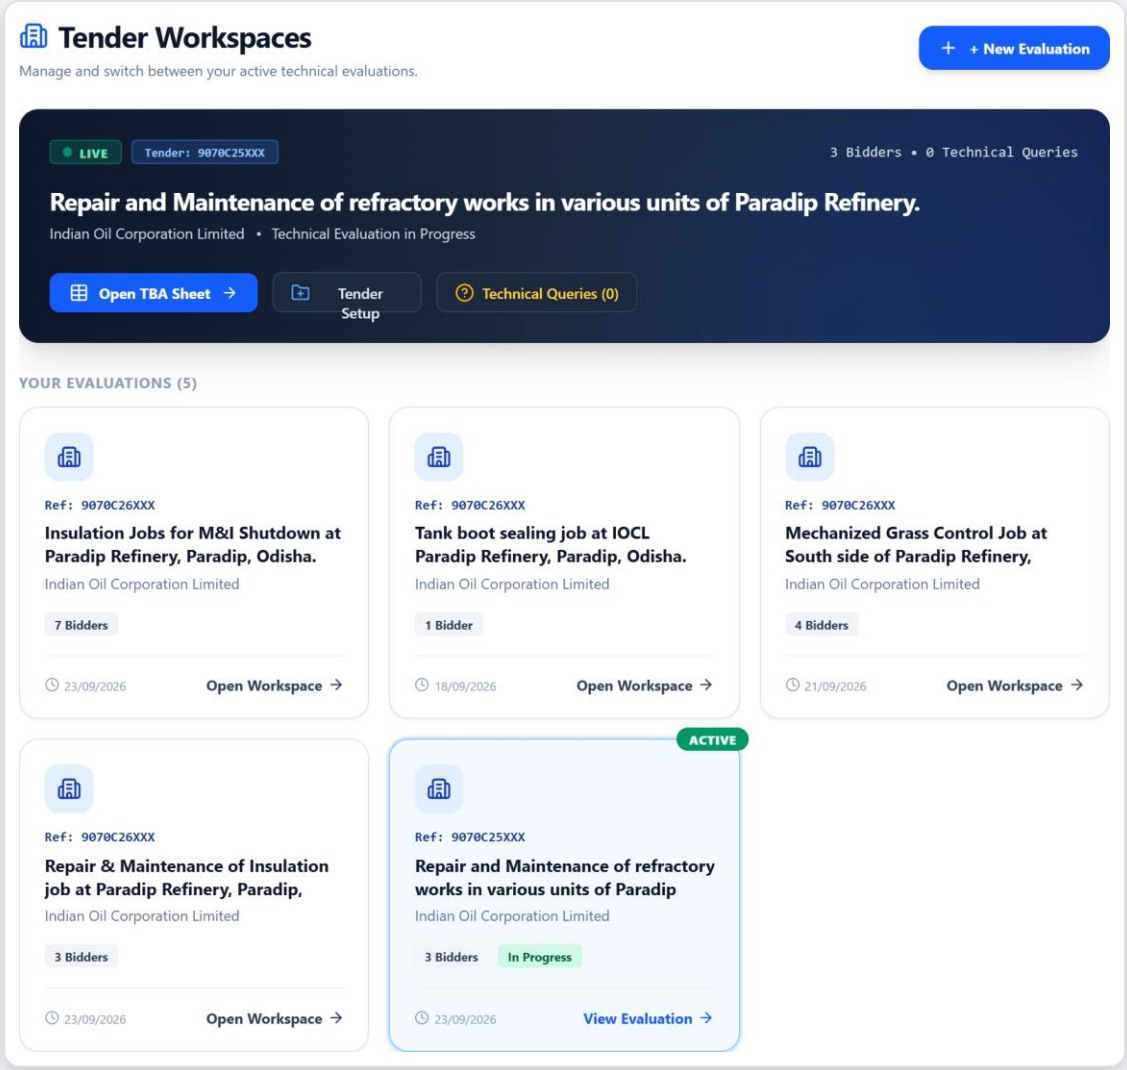

Sign in with Google and the tender syncs to the cloud, so colleagues open the same sheet from their own desks.

One editor at a time

An edit lock shows who is working on the sheet, so two people cannot overwrite each other.

Committee set once

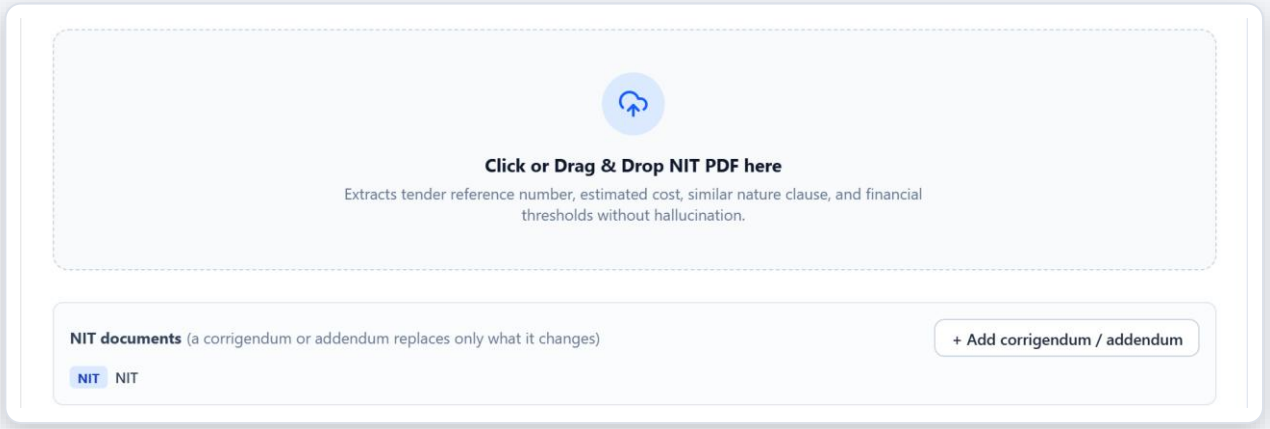

Signatories and review panel are configured per tender and print on the exported TBA.

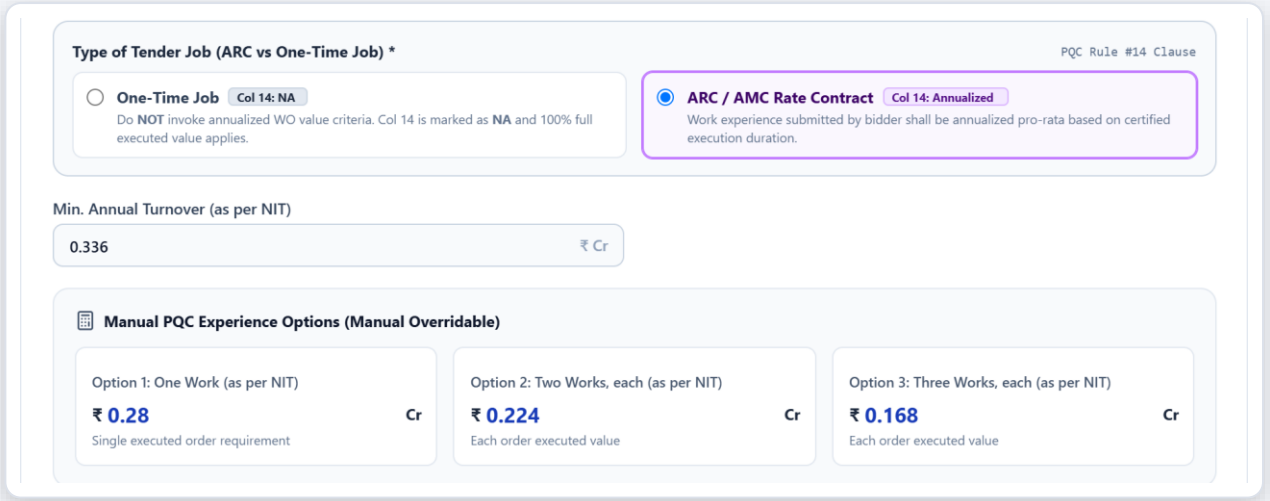

STEP 1 · TENDER SETUP

The NIT is the configuration

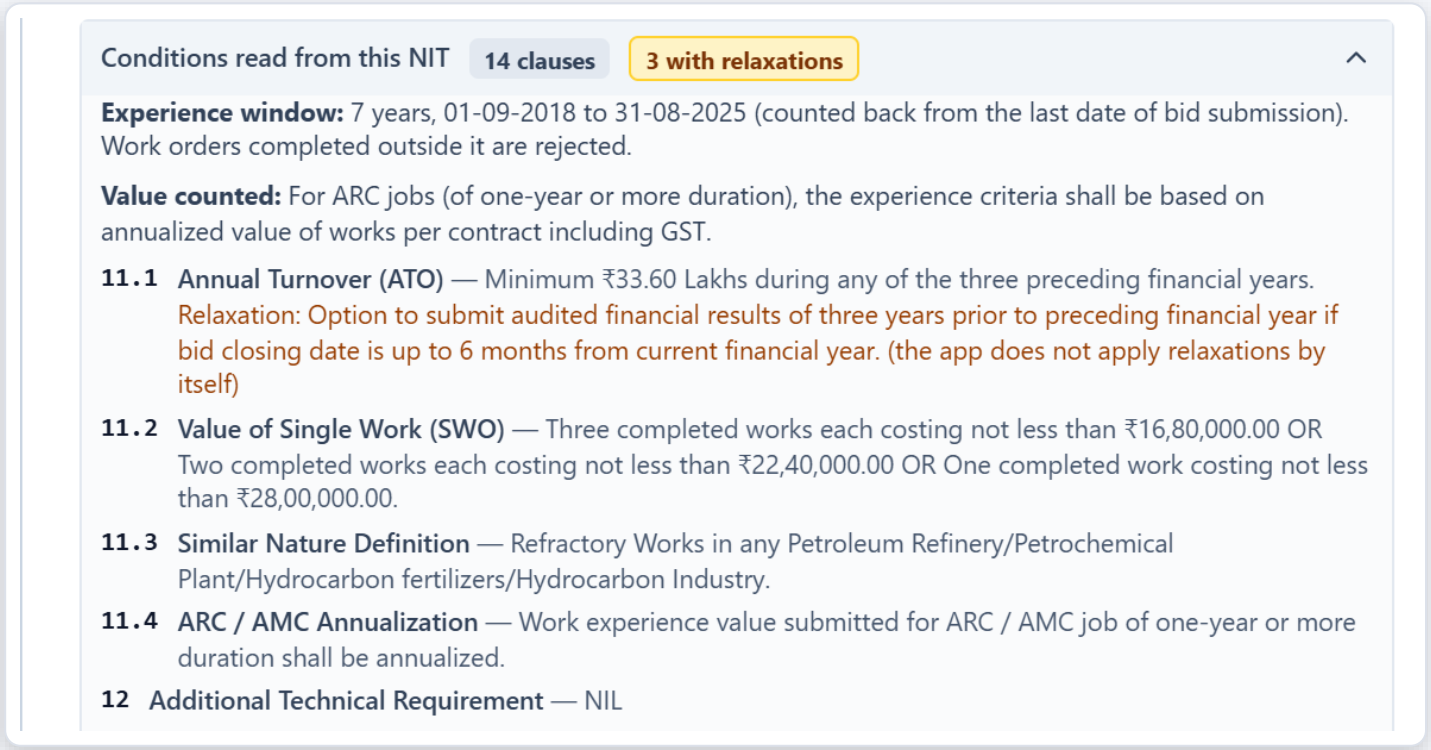

- **Upload the NIT PDF**, paste its text, or fill the fields by hand.
- **Nothing is hard-coded.** Qualifying values, similar-nature definition and ARC flag come from this tender's NIT, so the next tender needs no software change.
- **Corrigenda and addenda** are uploaded on top and replace only what they change.
- **The original bid-submission date** anchors the 7-year experience window. An extension never moves it.
- **ARC or one-time job** decides whether work-order values are annualised (column 14).

STEP 1 · WHAT THE APP READ

Every condition, with the clause it came from

Conditions read from this NIT **14 clauses** **3 with relaxations**

Experience window: 7 years, 01-09-2018 to 31-08-2025 (counted back from the last date of bid submission). Work orders completed outside it are rejected.

Value counted: For ARC jobs (of one-year or more duration), the experience criteria shall be based on annualized value of works per contract including GST.

11.1 **Annual Turnover (ATO)** — Minimum ₹33.60 Lakhs during any of the three preceding financial years. Relaxation: Option to submit audited financial results of three years prior to preceding financial year if bid closing date is up to 6 months from current financial year. (the app does not apply relaxations by itself)

11.2 **Value of Single Work (SWO)** — Three completed works each costing not less than ₹16,80,000.00 OR Two completed works each costing not less than ₹22,40,000.00 OR One completed work costing not less than ₹28,00,000.00.

11.3 **Similar Nature Definition** — Refractory Works in any Petroleum Refinery/Petrochemical Plant/Hydrocarbon fertilizers/Hydrocarbon Industry.

11.4 **ARC / AMC Annualization** — Work experience value submitted for ARC / AMC job of one-year or more duration shall be annualized.

12 **Additional Technical Requirement** — NIL

14 clauses read from this NIT, each kept against its clause number

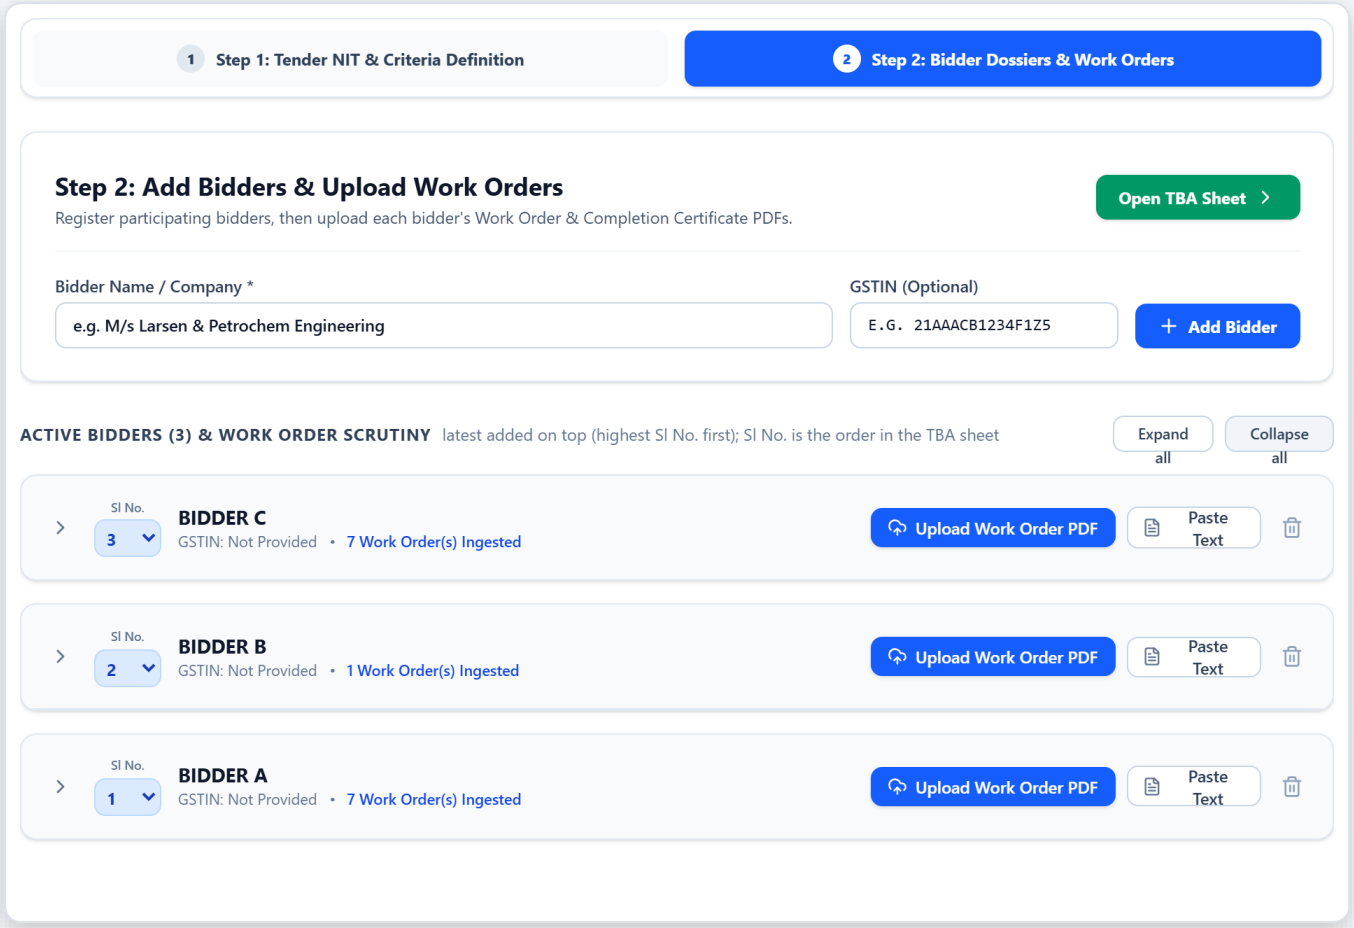

3 relaxations found and shown to the engineer. None is applied silently.

Matched by subject, not number

A NIT that numbers its value criterion 10.2 instead of 11.2 works unchanged.

STEP 2 · BIDDER DOSSIERS

Add each bidder once, then upload their documents

Any order, any mix

Work orders, completion certificates, performance statements and CA certificates, in whatever order the bidder sent them.

Scans welcome

Scanned pages are read directly. No separate OCR step.

The committee's order

The Sl No. selector sets the bidder order in the TBA sheet. Long dossiers collapse out of the way.

STEP 3 · THE TBA SHEET

The committee’s 18-column TBA, drafted in minutes

3 bidders, 15 work orders. Every column the committee’s format requires, exported to Excel and PDF in the same layout.

1. Sl No.	2. Bidder's Name	3. Work Order No. & dated, Name of issuing Organisation	4. Job Name	5. Whether meeting Similar nature (Yes/ No)	6. Completion cert Submitted (Yes/ No)	7. Job of sub contract type (Yes/ No)	8. Approval from owner Submitted (Yes/ No)	9. Start Date (DD-MM-YYYY)	10. Comp Date (DD-MM-YYYY)	11. Duration (months)	12. WO value in lacs Incl. GST	13. Comp Value of similar nature in lacs Incl. GST	14. Annualised completed value in lacs Incl. GST (ARC only)	15. NIL deviation sheet	16. WO Acceptable or Rejected or Query	17. Remarks: Reason for Technical acceptance or Rejection Or Technical Query	18. Final Position of bidder / Recommendation	Action
1	BIDDER A India 7 Work Orders	1. GST not stated in the document for the WO value Rs. 59.91 Lacs: taken as inclusive of GST (Clause No. 23.18 of NIT); check whether it includes GST.*		
		4. Work Order No. 2700017XXX Dt: 03-04-2025 NMDC Limited	Rotary Kiln refractory lining work as per scope of work at 1.2 MTPA Pellet Plant, NMDC Limited, Donimalai	No Refractory lining is refractory work, but NMDC pellet plant is a mining/metallurgical faci...	Yes	No	NA	15-03-2025	28-06-2025	3.47 3 months 14 days	186.32	186.32	186.32	Query to be raised	WO Rejected AI SUGGESTION Confirm	*Submitted WO No. 2700017XXX dated 03-04-2025 is not meeting the similar nature criteria as per Clause No. 11.3 of NIT. Refractory lining is refractory work, but NMDC pellet plant is a mining/metallurgical facility, not a hydrocarbon industry.*		
		5. Work Order No. 9030M24O10/70707XXX Dt: 17-01-2025 Indian Oil Corporation Limited	Supply of Mortar Firelite and Firecrete 95	No Supply of mortar and firecrete is a material supply order, not refractory execution work.	No	No	NA	17-01-2025	Completion certificate not submitted	Completion certificate not submitted	2.54	-	-	Query to be raised	WO Rejected AI SUGGESTION Confirm	*Submitted WO No. 9030M24O10/70707XXX dated 17-01-2025 is not meeting the similar nature criteria as per Clause No. 11.3 of NIT. Supply of mortar and firecrete is a material supply order, not refractory execution work.*		
		6. Work Order No. 9010M24O17/70946XXX Dt: 01-04-2025 Indian Oil Corporation Limited	Supply of Insulyte Castables, Whytheat K, Acc Whytheat-A, Accoset-50 F	No Supply of insulyte castables is a material supply contract, not refractory execution works...	No	No	NA	01-04-2025	Completion certificate not submitted	Completion certificate not submitted	8.58	-	-	Query to be raised	WO Rejected AI SUGGESTION Confirm	*Submitted WO No. 9010M24O17/70946XXX dated 01-04-2025 is not meeting the similar nature criteria as per Clause No. 11.3 of NIT. Supply of insulyte castables is a material supply contract, not refractory execution works.*		
		7. Work Order No. GEMC-511687790275XXX Dt: 06-05-2025 Rashtriya Chemicals and Fertilizers Limited	Supply of Refractory Cast Whytheat 'A'	No Supply of refractory cast is a material supply job, not refractory execution works.	No	No	NA	06-05-2025	Completion certificate not submitted	Completion certificate not submitted	1.30	-	-	Query to be raised	WO Rejected AI SUGGESTION Confirm	*Submitted WO No. GEMC-511687790275XXX dated 06-05-2025 is not meeting the similar nature criteria as per Clause No. 11.3 of NIT. Supply of refractory cast is a material supply job, not refractory execution works.*		

STEP 3 · COLUMNS 1–9

Similar nature comes with its reason

> *Supply of refractory materials is a material supply job, not refractory execution works.*
>
> Column 5, Bidder A, work order 3

- Yes / No on similar nature, explained in the words of the job itself.
- Work orders numbered within each bidder, so a multi-page printout still says which order is which.
- Sub-contract jobs flagged for the engineer to check (column 7).

1. Sl No.	2. Bidder's Name	3. Work Order No. & dated, Name of issuing Organisation	4. Job Name	5. Whether meeting Similar nature (Yes/ No)	6. Completion cert Submitted (Yes/ No)	7. Job of sub contract type (Yes/ No)	8. Approval from owner Submitted (Yes/ No)	9. Start Date (DD-MM-YYYY)	C
1	BIDDER A India 7 Work Orders	1. Work Order No. GEMC-511687723895XXX Dt: 27-03-2025 Hindustan Urvarak And Rasayan Ltd	Custom Bid for Services - Hiring agency for Refractory Works during Shutdown period at HURL Sindri	Yes Refractory works during shutdown at HURL Sindri fertilizer plant match work type and locat...	No	No	NA	03-04-2025	Cor cer sul
		2. Work Order No. 7009XXX Dt: 27-03-2025 Krishak Bharati Cooperative Ltd.	Refractory repair and plate replacement for the Auxiliary boiler in Ammonia plant	Yes Refractory repair work in an ammonia plant at KRIBHCO matches refractory works in a hydroc...	Yes	No	NA	19-05-2025	0
		3. Work Order No. GEMC-51168744782XXX Dt: 19-03-2025 Hindustan Urvarak And Rasayan Ltd	Supply of Refractory Materials	No Supply of refractory materials is a material supply job, not refractory execution works.	No	No	NA	19-03-2025	Cor cer sul
		4. Work Order No. 2700017XXX Dt: 03-04-2025 NMDC Limited	Rotary Kiln refractory lining work as per scope of work at 1.2 MTPA Pellet Plant, NMDC Limited, Donimalai	No Refractory lining is refractory work, but NMDC pellet plant is a mining/metallurgical	Yes	No	NA	15-03-2025	2

STEP 3 · COLUMNS 10–18

Every remark cites the clause it rests on

9. Start Date D-MM-YYYY)	10. Comp Date (DD-MM-YYYY)	11. Duration (months)	12. WO value in lacs Incl. GST	13. Comp Value of similar nature in lacs Incl. GST	14. Annualised completed value in lacs Incl. GST (ARC only)	15. NIL deviation sheet	16. WO Acceptable or Rejected or Query	17. Remarks: Reason for Technical acceptance or Rejection Or Technical Query	18. Final Position of bidder / Recommendation	Action
·04-2025	Completion certificate not submitted	Completion certificate not submitted	84.10	-	-	Query to be raised	Query to be raised AI SUGGESTION Confirm 1-Click TQ	*Contract issued on 27-Mar-2025. Invoices provided but no completion certificate attached.*		
·05-2025	08-06-2025	0.68 21 days	79.56	79.56	79.56	Query to be raised	WO Accepted(1 WO) AI SUGGESTION Confirm	*Annualised value Rs. 79.56 Lacs meets Rs. 28.00 Lacs required for 1 similar work under the PQC value criterion (Clause No. 11.2 of NIT).*		
·03-2025	Completion certificate not submitted	Completion certificate not submitted	59.91	-	-	Query to be raised	WO Rejected AI SUGGESTION Confirm	*Submitted WO No. GEMC-51168744782XXX dated 19-03-2025 is not meeting the similar nature criteria as per Clause No. 11.3 of NIT. Supply of refractory materials is a material supply job, not refractory execution works. GST not stated in the document for the WO value Rs. 59.91 Lacs: taken as inclusive of GST (Clause No. 23.18 of NIT); check whether it includes GST.*		
·03-2025	28-06-2025	3.47 3 months 14 days	186.32	186.32	186.32	Query to be raised	WO Rejected AI SUGGESTION Confirm	*Submitted WO No. 2700017XXX dated 03-04-2025 is not meeting the similar nature criteria as per Clause No. 11.3 of NIT. Refractory lining is refractory work, but NMDC pellet plant is a mining/metallurgical facility, not a hydrocarbon industry.*	Pending review	

No guessed dates

Without a completion certificate, the sheet says so rather than borrowing a date from elsewhere.

Clause in every remark

“…meets Rs. 28.00 Lacs required for 1 similar work (Clause No. 11.2 of NIT).”

Assumptions flagged

If GST basis isn’t stated, the remark says what was assumed and asks for a check.

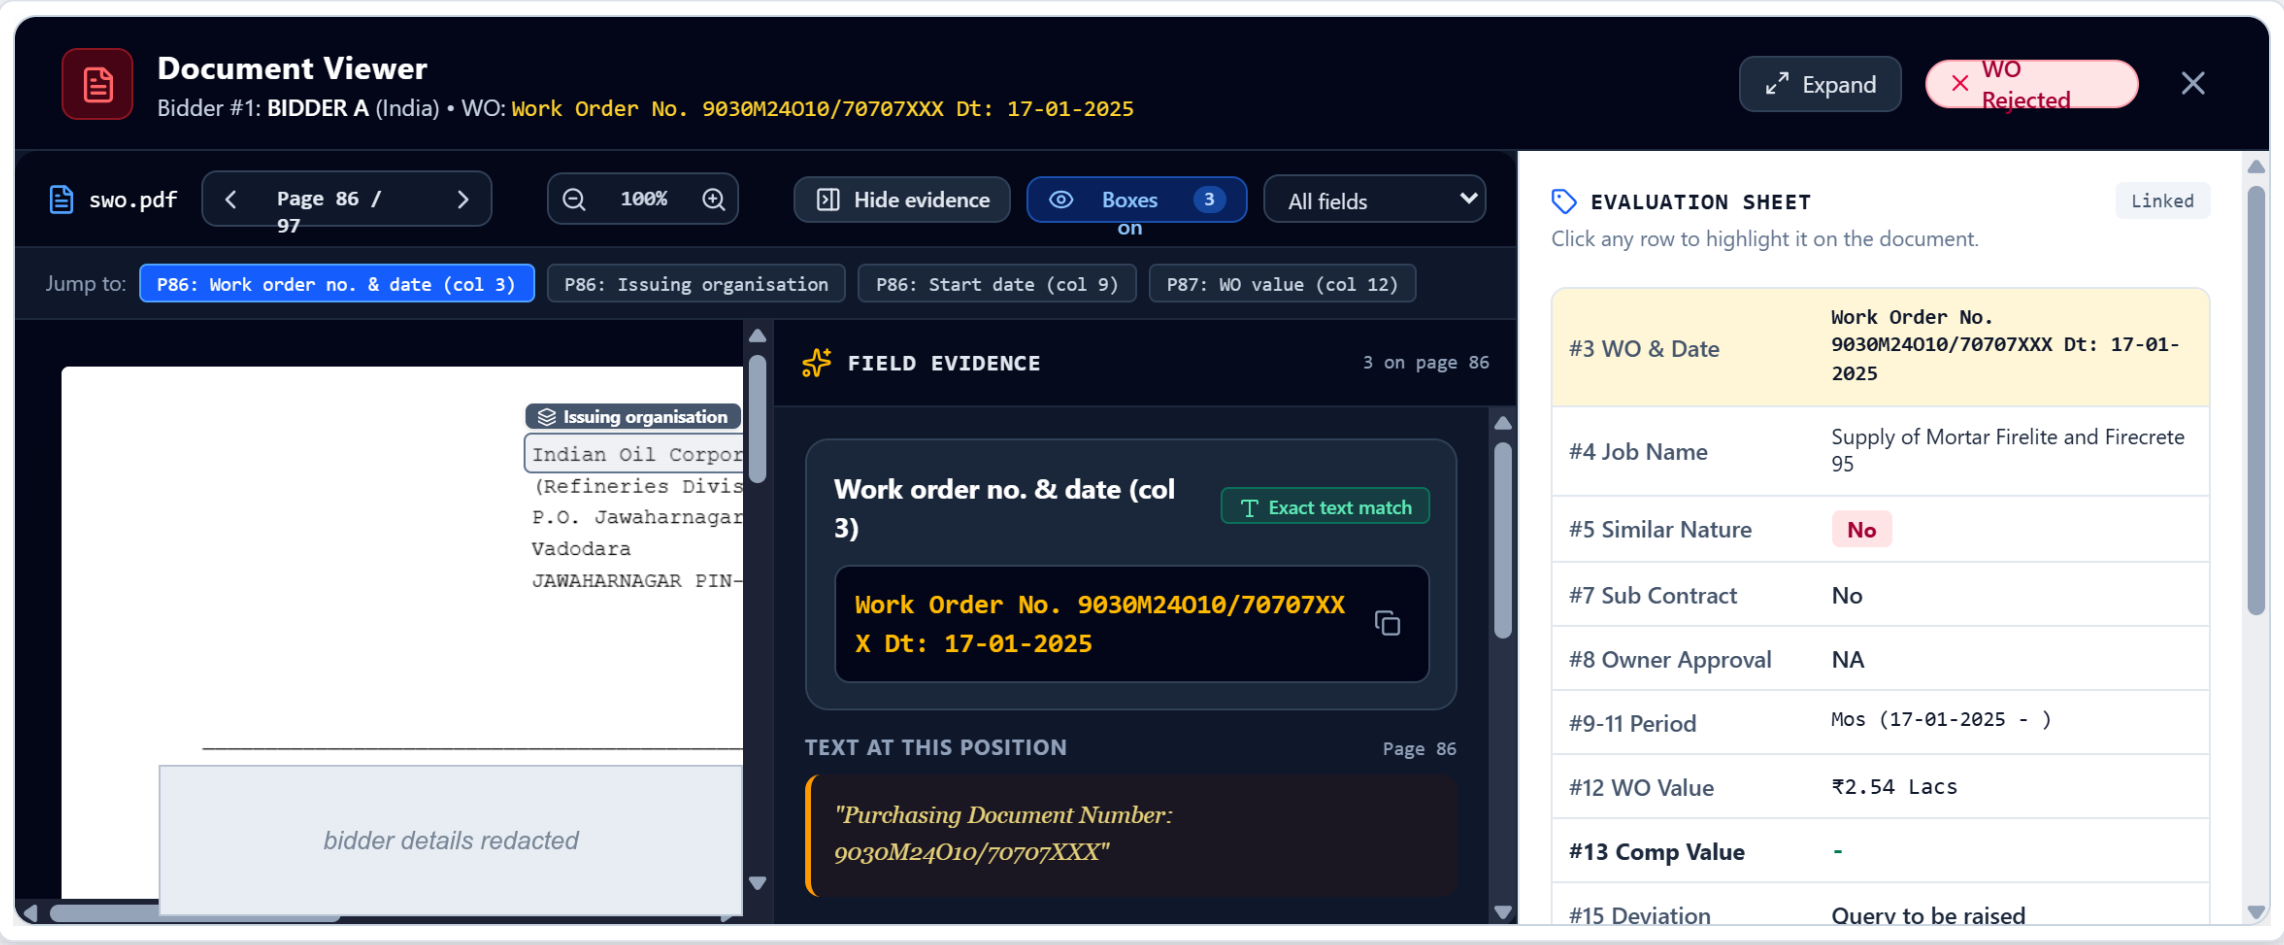

AI SUGGESTION until confirmed

The engineer presses Confirm on each row.

TRACEABILITY

Click any figure to open the page it came from

The original PDF opens at that page with the value boxed. Months after award, the evidence is still one click away.

TRACEABILITY

The value, the exact quote, and the page

Exact text kept for every field

The app stores the words it read and the page number, and marks whether the quote is an exact match.

Boxes are found, never guessed

The value is located through the PDF's text layer, or on the page image with the quote verified. If it cannot be found, no box is drawn.

Originals kept safely

Uploaded PDFs are stored by content fingerprint, so the same file is never duplicated and always reopens.

STEP 4 · QUERIES & OUTPUT

Technical queries drafted from what is actually missing

1-Click TQ

On any row marked “Query to be raised”, one click drafts the query: the deficiency observed, the NIT clause, and the response deadline. It goes into the tender’s official TQ register and prints as a clarification letter.

Draft → **Issued to bidder** → **Response received** → **Closed / accepted**

Every query is tracked from draft to closure in the Technical Queries tab.

Custom queries too

Draft a query for any bidder or work order and edit its wording before issue.

Excel, committee format

The 18-column TBA exactly as the committee files it.

Print-ready PDF

The same layout for signature, with signatories and review panel.

Recommendation summary

Technically acceptable, not acceptable, and query counts per tender.

BUILT FOR ACCOUNTABILITY

The sheet is signed by the engineer, not by the model

AI suggests, engineer confirms

Every row carries an AI SUGGESTION badge until an engineer presses Confirm.

Override with a reason

Any row can be changed. Accepting a rejected work order asks the engineer to state why.

Relaxations are never silent

NIT relaxations are shown to the engineer, who decides whether they apply.

No figure without a source

If a value can’t be shown on its page, the app doesn’t assert it.

RESULTS

Checked by hand against a real 896-page dossier

2 min 8 s

to read all 896 pages

27 of 28

work orders found

0

values invented

5

undocumented claims caught

Per tender

2–3 days → 2–3 hours

of engineer review, instead of 16–24 engineer-hours of reading

A year, at one refinery

4,200–8,400

engineer-hours freed across 300–400 tenders

TRY IT TODAY

Open it in any browser

tender-scrutiny-assistant.web.app

Try the demo

Click “Try the demo without an account” on the sign-in page. It opens a sample tender evaluation, with 3 PDF extractions a day.

Sign in for real tenders
